PROFESSIONAL SUMMARY

Java Developer with 1+ year of hands-on experience building and maintaining Java and Spring Boot applications with REST web services, backed by relational databases (PostgreSQL / MySQL) and SQL. Comfortable on the front end with HTML, CSS, JavaScript and React.js. Experienced in developing, debugging and supporting live enterprise applications for the Kerala Government. Quick learner who has recently added Docker to a Java, Spring Cloud and microservices toolkit. Good communication skills.

SKILLS SUMMARY

- **Languages**: Java, SQL, JavaScript, Python
- **Backend**: Spring Boot, REST API / Web Services, Spring Data JPA, Hibernate, Spring Security
- **Frontend**: HTML, CSS, JavaScript, React.js, Bootstrap
- **Database**: Relational databases: PostgreSQL, MySQL; SQL
- **Architecture**: Microservices, API Gateway, Service Registry, Config Server
- **Tools/Platforms**: Git, GitHub, Docker, Maven, Postman, STS, IntelliJ IDEA, VS Code, DBeaver

EDUCATION

MG College of Engineering — Vandithadam, Trivandrum
B.Tech, Computer Science and Engineering — 2021 - 2025

St Joseph's HSS General Hospital — General Hospital Jn., Trivandrum
Higher Secondary (Computer Science & Mathematics) — 2019 - 2021

St Mary's HSS Pattom — Pattom, Trivandrum
SSLC — 2018 - 2019

EXPERIENCE

Keltron ITBG — Vellayambalam, Trivandrum
Software Apprentice, Java Team — Feb 2026 - Present

- Completed 80+ development and support tasks across two enterprise projects for the Kerala Government.
- **Animal Husbandry System**: developed Java backend features for pet shop and animal breeder registrations.
- **Analytical Lab System**: worked on purchase and inventory management of chemical-based lab items.
- Debugged issues and resolved support requests in live enterprise applications; supported frontend work.
- **Tech**: Java, Spring Boot, REST APIs, JPA / Hibernate, PostgreSQL, Microservices

Kompetenzen and Technologies — Trivandrum
Full-Stack Development Intern — Jun 2025 - Feb 2026

- Developed a CRUD Movie Watchlist application end to end using Spring Boot REST APIs, MySQL and a React.js frontend.
- Managed frontend state with React Hooks and used Git for version control throughout the project.
- **Tech**: Java, Spring Boot, REST APIs, React.js, MySQL, Git

TechMagi — Kochi
Campus Ambassador — Jan 2022 - Mar 2025

- Promoted technical workshops, certifications and internship programs to students for over 3 years, supporting 50+ events.

PROJECTS

Animal Husbandry Management System - Java Developer

- Developed and maintained a microservices-based government application for animal husbandry services, including Citizen, Pet Shop, and Dog Breeder modules.
- Built RESTful APIs with Java, Spring Boot, Spring Data JPA, and Hibernate for registration, verification, approval, and status-tracking workflows.
- Developed React-based registration forms, dependent dropdowns, document uploads, and dashboard components; worked with PostgreSQL and Spring Cloud (API Gateway, Service Registry, Config Server) to support the architecture.
- **Tech**: Java, Spring Boot, REST APIs, Spring Data JPA, Hibernate, PostgreSQL, Spring Security, Microservices, React.js, Git

Analytical Laboratory Management System - Java Developer

- Developed and maintained a microservices-based enterprise application for laboratory procurement, inventory, asset management, and service workflows.
- Built and supported backend services using Java, Spring Boot, Spring Data JPA, and Hibernate for indent management, stock management, asset registration, service requests, and approval workflows.
- Developed React-based modules for indent management, stock receipt and issue, asset registration, dashboards, and reports; worked with PostgreSQL and Spring Cloud (API Gateway, Service Registry, Config Server) to support the architecture.
- **Tech**: Java, Spring Boot, REST APIs, Spring Data JPA, Hibernate, PostgreSQL, Spring Security, Microservices, React.js, Git

Student Tracker - Java Developer

- Built a student record management application with Spring Boot REST APIs, Spring Data JPA, Hibernate and PostgreSQL, and a React.js frontend.
- Implemented REST endpoints to create, view, update and delete student records, with custom exception handling for missing records and sorted listing by creation time.
- Built React UI for add, view, edit and delete workflows using React Router, Axios and Bootstrap; containerized the backend with a multi-stage Dockerfile (Maven build, OpenJDK 17).
- **Tech**: Java 17, Spring Boot, REST APIs, Spring Data JPA, Hibernate, PostgreSQL, React.js, Bootstrap, Axios, Docker, Maven, Git

ACHIEVEMENTS

- Selected as Sports Vice President at MG College of Engineering.
- Selected as Head Boy for Class 10 at St Mary's HSS Pattom; served the school for one year.

CERTIFICATIONS

- Microservices with Java Spring Cloud — Udemy
- Full Stack Java Development — Kompetenzen Technologies
- Data Science with Python — TechMagi
- Python Django Framework — Cadpoint
